Explore a selection of booths to start your industry-specific journey.

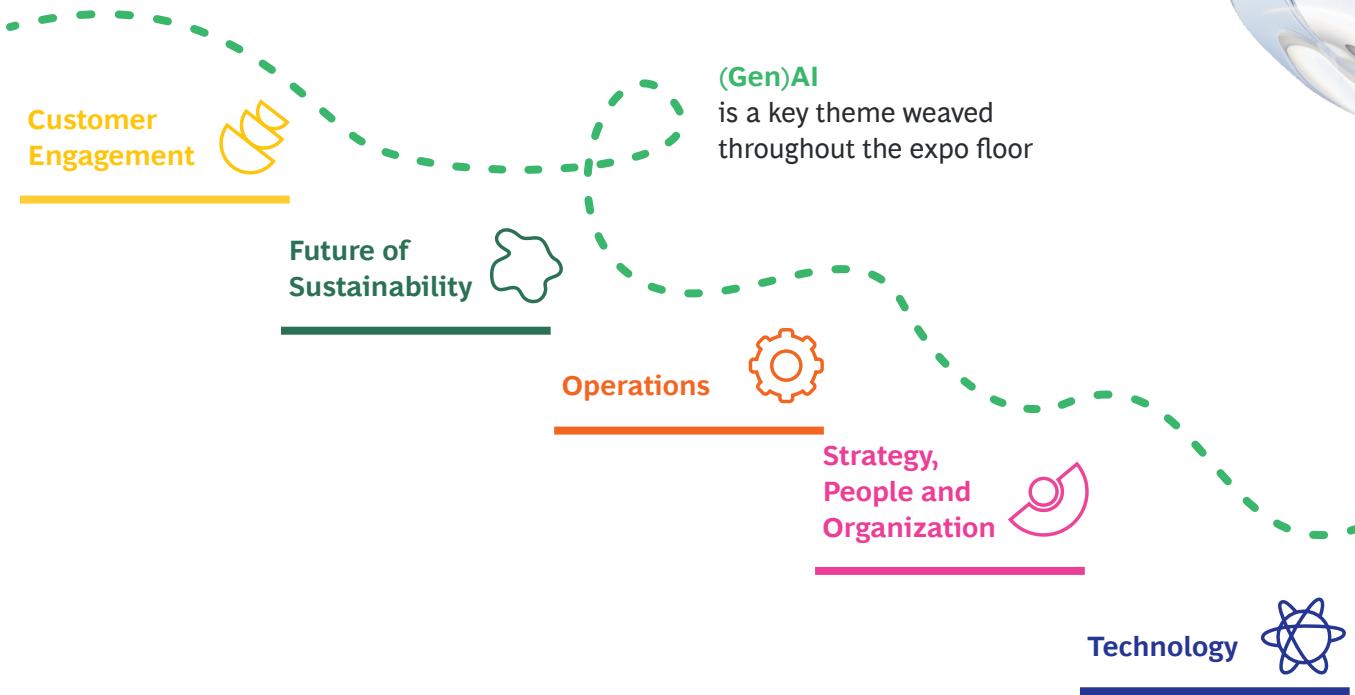

# Overview

May 9 at The Boston Convention & Exhibition Center

The EDGE expo is an opportunity to deepen your knowledge on business-critical topics, get hands-on with the latest tech, and connect with our industry leaders, business partners and pioneering startups.

## 5 Thematic Neighborhoods:

## 70+ booths

Including 15+ leading tech partners and collaborators and 15+ innovative startups

## Micro-theater

Opportunity to hear from BCG experts on cross-functional topics

# Key Themes

Explore 70+ booths across 5 thematic neighborhoods

## Customer Engagement

*Reinvent Customer Engagement*

Drive profitable growth by redefining your company-customer relationship. Learn how we are scaling personalized insights, offers, and interactions, underpinned by advanced technology and AI capabilities.

## Future of Sustainability

*Reinvent Sustainably for Business Value*

Discover how sustainability can drive competitive edge. Through our work and partnerships learn about innovative strategies in decarbonization, circularity, and more. Experience the future of sustainable business with our AR/VR showcase.

## Strategy, People and Organization

*Reshape Organizations for the Future*

Visualize the future of business strategy and structure in a digital era. Find pioneering solutions transforming companies, delve into advanced AI applications altering workforce trends, and interact with experts leading business innovation.

## Technology

*Reinvent your Tech Function to Accelerate Growth*

Explore how to tackle complexity in tech and digital. Learn to use technology for real-world solutions and significant impact. We support transformation, redesigning tech landscapes, cyber resilience, and implementing tech platforms. Discover technologies driving innovation!

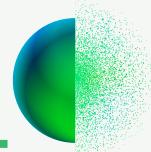

## Operations

*Reshape your Operations for Impact*

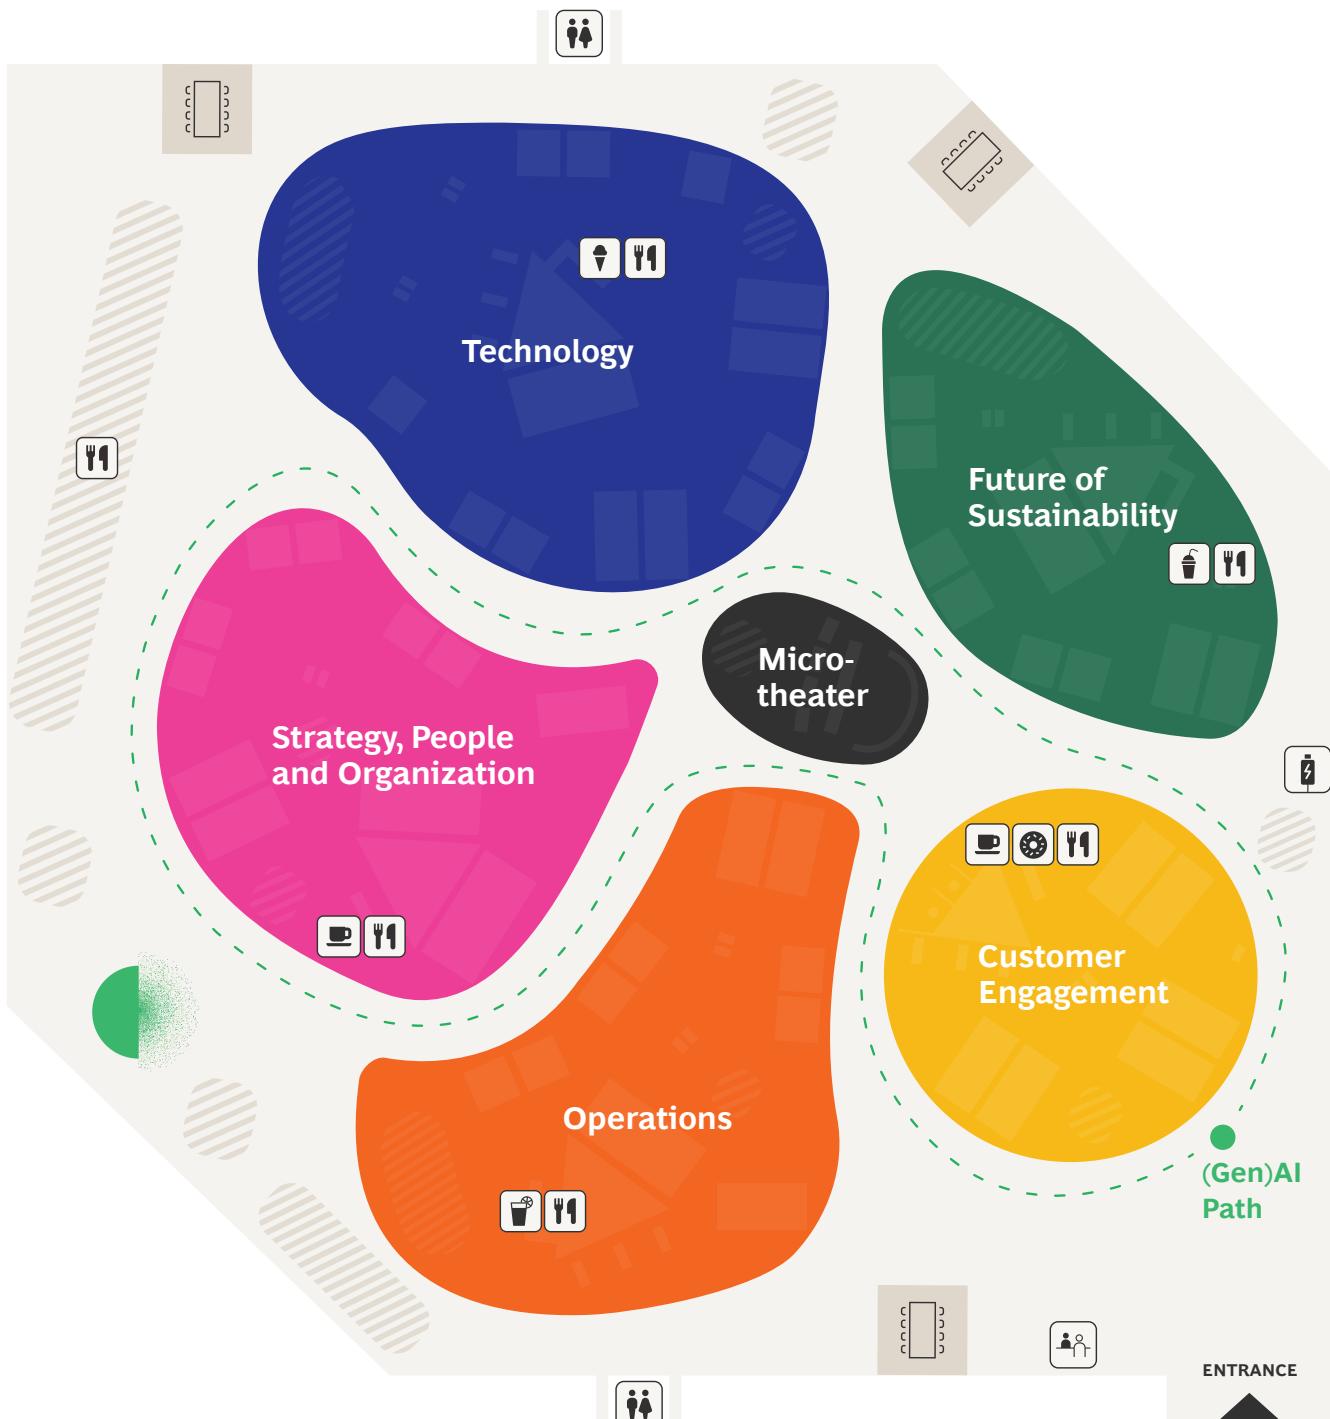

Step into the future of Operations, where transformation is rapidly reshaping how we create value. Explore how cutting-edge technology meets pragmatic application, unlocking productivity. Embrace new technologies revolutionizing our entire value chain, from supply chain to support functions.

## (Gen)AI Path

(Gen)AI is an overarching theme of EDGE and the technology is woven throughout each neighborhood. If you would like to explore how BCG is going beyond the hype and creating value at scale with (Gen)AI, follow this dedicated pathway.

## CX01 | Customer Insight & Innovation

*Drive demand-driven innovation at scale*

Customer intelligence growth has been exploding, however, many organizations have struggled to translate this into improved decision-making and outcomes. For success, leverage AI to unlock three types of fundamental shifts: Deploy AI to optimize tasks, reshape decision-making with AI, and unlock a holistic intelligence ecosystem. Learn how AI-enabled transformation can drive integrated data-rich human insights, massive productivity gains, creativity, and superior innovations in fraction of time.

## CS01 | Green Business Build & Scale

*Capture value for your core & beyond*

Industrial Goods

Consumer Products & Retail

Energy

The green business build opportunity is now. Value pools are shifting, creating both opportunity and risk for those who do not act. Corporations have an opportunity to lead as sectors transform. Creating viable new business lines requires new capabilities around building and scaling climate businesses and utilizing technology and talent across the climate tech ecosystem. Come learn how we support companies on this journey, by transforming green challenges into green opportunities.

**Booth contacts:** Raju Sarma, Vinay Shandal

---

## CS02 | Demand-Driven Sustainable Innovation

*Innovate, design, and market green products that sell*

Industrial Goods

Consumer Products & Retail

Businesses struggle to balance carbon reduction with commercial performance, while customers navigate the trade-offs between fulfilling their core needs and sustainability. What if radical product innovation is possible without compromising customer preferences, performance, sustainability, or profitability? Join us to learn how to turn sustainability into a value driver and dive into our immersive AR to experience Accelerated Product Innovation framework deployment!

**Booth contacts:** Mikael Le Mouellic, Lauren Taylor, Antoine Gourevitch

---

## CS03 | Decarb Solutions

*Discover massive growth opportunities in low carbon solutions*

Industrial Goods

Energy

Travel, Cities, and Infrastructure

Decarbonization is the key lever to get us to net zero, and the landscape of solutions is rapidly evolving. Our experts understand which solutions best apply to each industry and can share BCG's offering in low-carbon hydrogen, renewable energy, biofuels & bioenergy, storage, carbon capture utilization and storage (CCUS), and green building tech / materials.

**Booth contact:** Patrick Herhold

## CS04 | Circular Economy

*The \$100Bn+ opportunity in circularity*

The linear “take-make-waste” economy drives today’s sustainability issues and contributes to the upward trend in resource extraction and GHG emissions. Across materials, each year more than \$100Bn of material value is lost at end of life. Tapping into these streams can be a win-win-win opportunity for value, emissions, and nature. Come to our booth to learn how to harness this untapped value!

## CS06 | Climate Risk, Adaptation & Resilience

*Build adaptation to thrive in the face of climate risks*

As 1.5°C gets further out of sight, both public and private sectors must prepare for the severe impacts of climate change on people, economies, businesses, and ecosystems globally. BCG has an end-to-end approach to adaptation and resilience (A&R) transformation, from climate risk assessments, to A&R strategies, to financing and implementation. Join us to discover how BCG is advancing the A&R agenda and deploying our analytics-backed approach with organizations globally.

**Booth contacts:** Lorenzo Fantini, Annika Zawadski

## CS07 | Sustainable Finance & Investing

Financial Institutions

*Elevate commercial, risk, and regulatory acumen with data for banks*

Join us to see how our expertise, tools and partnerships can help you go beyond compliance in mastering ESG to drive growth, bolster resilience, and future-proof financial institutions. Experience interactive demos of our products “CO2 FI” and “Nature FI”, our recent work with Tier 1 banks, as well as learning more about the exciting partnerships we have for differentiated impact in climate risk and reporting including MSCI who will join us at the booth.

**Booth contacts:** Anne Kleppe, Amine Benayad

## CS08 | Policy & Regulation

Energy

*Seize trillion-dollar opportunities & cut cost of green policy & regulation*

Tech, Media, and Telecom

Policy and regulation is setting the pace of the green transition and will make the market for many industries. BCG has the expertise to support organizations to navigate and shape this complex and evolving landscape. Join us to hear more on smart reporting & disclosure, to see PolicyPulse - our GenAI-enabled policy analysis tool, and to learn about BCG's partnership with Workiva ESG reporting.

## CS09 | Sustainable Food & Nature Solutions

Industrial Goods

*Future-proof food & nature: Capturing value through systems transformation*

Consumer Products & Retail

Energy

Global food and nature systems face stress from climate, geopolitics, and conflicts. On top, agriculture contributes to 1/3rd of global emissions and significant biodiversity decline. Transforming food systems is crucial for resilience and growth across industries, from industrials to CPGs, banks, and public sector. BCG and Quantis offer sustainable solutions throughout the value chain, including production, consumption, and waste management.

Financial Institutions

Public Sector

**Booth contact:** Shalini Unnikrishnan

## CS10 | LanzaTech

*Recycle carbon with biology*

LanzaTech (NASDAQ: LNZA) is the carbon recycling company transforming waste carbon into sustainable raw materials for everyday products. Its commercial biorecycling technology captures carbon generated by energy-intensive industries at the source, preventing it from being emitted into the air. LanzaTech then gives that captured carbon a new life as a clean replacement for virgin fossil carbon in everything from household cleaners and clothing fibers to packaging and fuels.

## CS12 | Patch

*Patch is the platform accelerating climate solutions with integrity*

A livable future depends on climate solutions to remove and avoid carbon emissions. Patch is the platform accelerating climate solutions with integrity. Patch technology enables organizations to buy, manage, and sell carbon credits with efficiency, transparency, and rigor — strengthening trust in carbon markets and climate solutions. With that trust, companies can achieve their climate goals, project developers can scale their solutions, and the planet can be put on a path back to balance.

## PE03 | Build for the Future with (Gen)AI

*Accelerate your (Gen)AI readiness, drive value, outperform competition*

• (Gen)AI Path

All industries

Are you part of the leading 6% of companies excelling in growth and financial returns? These companies are built for the future - they leverage digital, tech, and AI for immediate and enduring impact while building capabilities to sustain their advantage. Unsure where to begin? Swing by our booth to learn more about our diagnostics for benchmarking digital and (Gen)AI capabilities, how you stack up in the journey vs. your competition, and where you need to double down to become future-ready.

**Booth contact:** Amanda Luther

---

## PE04 | Cost Excellence

*Accelerate toward a Leaner, Faster, and Stronger organization*

All industries

CEOs across the globe unanimously agree that reducing costs is their highest priority this year. Learn how to unleash earnings by taking a holistic approach to cost management.

**Booth contacts:** Paul Goydan, Kevin Kelley

## PE05 | Agile & Platform Operating Model

*Revolutionize your operating model to win with AI*

All industries

Step into the future with our interactive booth! Explore the cutting-edge of AI enabled by Agile & Platform Operating Model for large-scale transformation. Get hands-on with our resolution room feat. interactive demos that bring governance & measurement to life. Dive into the world of Objectives & Key Results (OKRs) with our GPT-powered tools. Learn from BOSCH's transformation triumph to see how you can revolutionize your op model. Your journey to speed & efficiency at scale starts here!

**Booth contacts:** Jaap Backx, Nico Hunke

---

## PE06 | Talent & Skills

*Costs down, skills up: the unbeatable formula*

All industries

Talent development and retention is #1 priority investment area for 75% of C-suite leaders as a cornerstone for growth. Our BCG's AI-enhanced Talent & Skills approach helps you to transition to a skills-based organization, secure the right talent for future transformations, address critical talent gaps and reduce costs! Discover TalentBuilder by BCG, our new E2E talent platform and explore our latest approaches to tackle your Tech and Digital talent needs.

**Booth contact:** Vinciane Beauchene

---

## PE07 | BCG U

*Transformative upskilling at scale*

All industries

Upskilling is a top priority for leaders, but existing solutions are not up to the task. That's why we created BCG U, to mobilize workforces with the skillsets they need to keep up with the modern business world. Stop by our booth to discover how our customized solutions drive business results and together we'll strategize how to transform your organization through upskilling.

**Booth contact:** Charles Westrin

## PE08 | People Analytics & Insights

*AI-powered people & org insights and innovation*

• (Gen)AI Path

All industries

Generative AI and Digital Technology are changing the way we work. Our AI analytics help identify where the real business value lies, which use cases to apply, and their impact on skill requirements. Understanding and measuring employee sentiment, as well as encouraging adoption, are key to navigating the (Gen)AI transformation journey. Learn how our tools can support and propel this change, offering strategic benefits and preparing your workforce for the future.

**Booth contact:** Frank Breitling

---

## PE09 | Workday

*A leading enterprise platform for finance and HR*

Partner & Collaborator

All industries

Workday is a leading enterprise platform that helps organizations manage their most important assets – their people and money. The Workday platform is built with AI at the core to help customers elevate people, supercharge work, and move their business forever forward. Workday is used by more than 10,000 organizations around the world and across industries – from medium-sized businesses to more than 50% of the Fortune 500. For more information about Workday, visit [workday.com](http://workday.com).

**Booth contact:** Suzanne Skipper

---

## PE10 | Behavioral Science

*Make change that sticks*

All industries

Explore the dynamic world of change management and behavioral science and learn how to lead your organization through transformation for strong and sustainable change. Experiment with our latest tools, including the Change Energy Assessment, AI-enabled employee listening at scale, and a cutting-edge enterprise GPT for transformations.

**Booth contacts:** Kristy Ellmer, Julia Dhar

## PE11 | Geopolitics & Business

All Industries

*Capture growth amidst geopolitical uncertainty*

From car manufacturers to tech companies to confectioners, geopolitical tensions are redefining business environments. Leaders are seeking to find their footing in an increasingly uncertain world and build the geopolitical muscle needed to navigate it. Visit our booth to get a taste of the geopolitics of chocolate while engaging with experts from BCG's Center for Geopolitics on the strategies and no-regret moves leaders need to future-proof their business for a multipolar world.

**Booth contacts:** Marc Gilbert, Nikolaus Lang, Kasey Maggard

---

## PE12 | Strategy for the Future

All industries

*Seize the future today with technology & human creativity*

The What and Why: BCG's 60-year history has always begun with Strategy. For decades, it's been deeply ingrained in our firm's DNA, brand, and value proposition. While we can be proud of our roots, the truth is: Strategy has evolved. In this ever-changing new world, Strategy is now predominantly a capability to make sense of the shifts occurring globally. Only once you've embraced this capability can you think strategically to gain and sustain competitive advantage.

**Booth contact:** Ketil Gjerstad

---

## PE13 | TechWolf

• (Gen)AI Path    Startup

All Industries

*Enable real business outcomes with skill data. Finally.*

TechWolf infers skill data from key business systems, making it less generic and actually usable.

That skills data is then structured into a company-specific skill framework and individual employee skill profiles.

Finally, TechWolf connects and synchronizes the skill data to where the business can use it.

**Booth contact:** Samy Ben Saïd <samy@techwolf.ai>

## PE14 | Eightfold AI

*Talent Intelligence Platform*

● (Gen)AI Path

Startup

All Industries

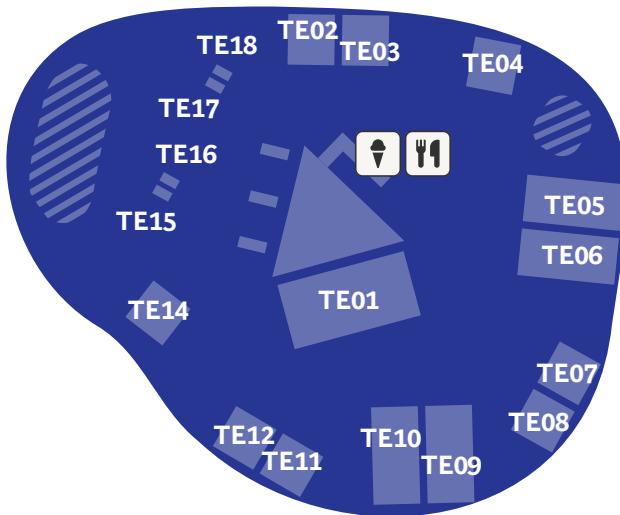

Eightfold AI's market-leading Talent Intelligence Platform™ helps organizations retain top performers, upskill and reskill their workforce, recruit talent efficiently, and reach diversity goals. Eightfold's patented deep learning artificial intelligence platform is available in more than 155 countries, across 24 languages, and 20+ verticals, enabling cutting-edge enterprises to transform their talent into a competitive advantage.
